Concerned C8 Citizens doc 1.doc

Hi Sean,

I believe I got a call from this same person yesterday (though she didn't give a name) asking me to get someone to give state superfund information to her and her city government. I explained that the EPA can't directly give information about a state site that we are not directly involved in, but committed to having Larisa reach out to DEC and see if we can connect someone with the person. I asked her to email me directly to get things in motion. She did not, but again I think she might be the person emailing Judith below. Can you advise us on who best to speak to at DEC about getting information to the resident?

Administrator Enck - I am sending you a copy of a letter that was emailed to NYSDEC Commissioner Seggos. Our committee was formed due to frustration of residents not being informed of our current situation as a class 2 Superfund Site. Although, our understanding DEC has assigned a project manager to the Town of Petersburg there has been no contact from him. We are currently seeking a representative from NYSDEC to come and speak with us so that we have a better understanding of the Superfund and are rights as citizens.
